

## 2000 Series Lawn Tractor

Providing performance, comfort, power and agility, the 2000 Series has what you need to get the job done right. Chose from two great mower deck options, a stamped steel mower deck with all steel construction and Marbain® steel blades or a durable fabricated steel mower deck offering commercial quality performance with heavy-duty pulleys and greasable spindles. Perfect for severe grass conditions and heavy-duty cutting. The Briggs & Stratton Professional Series™ V-Twin Engine provides high-performance and long life, the 14" turning makes trimming around obstacles easy, leaving you with the legendary quality you've come to expect from Massey Ferguson®.

Greasable cast-iron front axle adds to the strength and performance of the one-piece steel channel frame.

Centrally located controls allow for easy operation of the electric blade engagement and cruise control.

Briggs & Stratton Professional Series™ V-Twin Engine provides high-performance and long-life with dual-sealing, cartridge-style air filter, full pressure lubrication and a premium high-capacity oil filter.
